Literature Review

July 28, 2026

Summary of Literature

- 1. Factors contributing to antibiotic use among children younger than five years old with fever, acute respiratory illness, and diarrhea in Bangladesh**
Authors: Probir Kumar Ghosh, Kaniz Khatun E Jannat, Ausraful Islam, Ireen Sultana Shanta, Kazi Munisul Islam, Md. Golam Dostogir Harun
Journal: *The Journal of Infection in Developing Countries* (2023)
Link: <https://jidc.org/index.php/journal/article/view/37824345>
- 2. Why Do Parents Take Their Children to Informal Healthcare Providers? Insights from Bangladesh**
Authors: A. Mangadu et al.
Journal: *The American Journal of Tropical Medicine and Hygiene* / PMC (2026)
Link: <https://pmc.ncbi.nlm.nih.gov/articles/PMC12904251/>
- 3. Antibiotic dispensing behaviors for pediatric diarrhea: A qualitative study of informal healthcare providers in rural Bangladesh**
Authors: D. Biswas et al.
Journal: *PLOS ONE* / PMC (2025)
Link: <https://pmc.ncbi.nlm.nih.gov/articles/PMC12714273/>
- 4. Antibiotic Use for Febrile Illness among Under-5 Children in Bangladesh: A Nationally Representative Sample Survey**
Authors: Nora Samir, Md. Zakiul Hassan, Md. Abdullah Al Jubayer Biswas, Fahmida Chowdhury, Zubair Akhtar, Raghu Lingam, Sayera Banu, Nusrat Homaira
Journal: *Antibiotics* (2021)
Link: <https://www.mdpi.com/2079-6382/10/10/1153>
- 5. Factors associated with acute respiratory infection and healthcare-seeking behaviour among primary caregivers in Bangladesh: a study based on MICS 2019**
Authors: Md Fuad Al Fidah, Ali Amin Nabin, Syeda Sumaiya Efa
Journal: *BMJ Public Health* (2024)
Link: <https://bmjpublichealth.bmj.com/content/2/1/e000576>
- 6. Healthcare seeking behavior and antibiotic use for diarrhea among children in rural Bangladesh before seeking care at a healthcare facility**
Authors: Sampa Dash, Mohammad Ali, Eva Sultana, Malathi Ram, Jamie Perin, Farina Naz, Bharati Roy, ABM Ali Hasan, Farzana Afroze, Fahmida Tofail, Tahmeed Ahmed, ASG Faruque, Subhra Chakraborty
Source: Research Square / PMC (2025)

Link: <https://pmc.ncbi.nlm.nih.gov/articles/PMC12047968/>

7. Healthcare seeking behavior for common illness among Bangladeshi under-five children: a nationwide cross-sectional survey

Authors: M. Sabbir Ahmed, F. M. Yunus

Journal: *Children and Youth Services Review* (2020)

Link: <https://www.sciencedirect.com/science/article/abs/pii/S0190740920320673>

8. Antibiotic use for acute respiratory infections among under-5 children in Bangladesh: a population-based survey

Authors: Md Zakiul Hassan, Mohammad Riashad Monjur, Md Abdullah Al Jubayer Biswas, Fahmida Chowdhury, Mohammad Abdullah Heel Kafi, Jeffrey Braithwaite, Adam Jaffe, Nusrat Homaira

Journal: *BMJ Global Health* (2021)

Link: <https://gh.bmj.com/content/6/4/e004010>

9. Antibiotic Use and Care-Seeking Practices for Childhood Diarrhea and Respiratory Illnesses in the Community in Bangladesh

Authors: Sampa Dash, Mohammad Ali, Eva Sultana, Malathi Ram, Jamie Perin, Farina Naz, ASG Faruque, Subhra Chakraborty

Source: Community Survey / Preprints.org (2026)

Link: <https://www.preprints.org/manuscript/202605.0248>

10. Inequalities in Care-seeking for Febrile Illness of Under-five Children in Urban Dhaka, Bangladesh

Authors: S. M. M. Islam, Shams El Arifeen, et al.

Journal: *Journal of Health, Population and Nutrition* / PMC (2011)

Link: <https://pmc.ncbi.nlm.nih.gov/articles/PMC3225115/>
